## Purpose of the Program:

To improve patient outcomes by enhancing the knowledge of critical care health care professionals.

## Target Audience:

This program is designed for registered nurses and other health care professionals practicing in critical care settings.

## Program Objectives

After completing this learning activity, the participants will be able to:

1. Use research findings in their clinical practice to improve patient outcomes.
2. Evaluate current trends, clinical pharmacology and treatment modalities for trauma and critically ill patients.

## Continuing Education Credits

Hennepin County Medical Center is an approved provider of continuing nursing education by the Wisconsin Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation.

6.75 Contact hours of nursing education will be offered for the successful completion of this program.

- Criteria for Successful Completion: Attendance at the entire program and completion of a program evaluation form.

Vendor support is used to defray the cost of the program materials, but not in sponsoring speakers or content of the conference. No conflict of interest has been disclosed by faculty, planning committee or vendors.
