# EMS Education

## 2012 Course Dates Basic & Refresher

January–June

Emergency Medical Services Education provides emergency medical education for healthcare providers at HC/MC, emergency medical services (EMS) personnel in Hennepin County, and throughout the region. Also, EMS Education staff, in partnership with Emergency Medicine physicians, coordinates research activities. EMS Education supports the emergency medical education needs of Hennepin County Medical Center personnel.

EMS Education also offers initial and re-certification training programs to Hennepin County public safety personnel (e.g. firefighters and law enforcement personnel) who function in a first responder role in the Hennepin County EMS system. EMS Education seeks to advance the level of care in EMS throughout the state.
