# THE LEGEND OF CRUNCH'S CRASH!

A long time ago, Crunch made his first trip to the Twin Cities to see the Timberwolves. It wasn't long before he got bored, and hungry, and tired of sitting in one place.

Then all of a sudden, **CRUNCH!** It was the loudest sound Crunch had ever heard.

After the crash, the doctor in the **HCMC Emergency Department** told Crunch that his booster seat had kept his body and brain from being seriously hurt.
